

Ebson Joy

Full-Stack Developer

ebsonjoy721@gmail.com | +91 9747277851 | Kerala, India | [LinkedIn](#) | [ebson.online](#)

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years shipping production applications in Next.js, NestJS, Node.js, and Supabase. Currently leading backend architecture and a 2-person frontend team for Mint Talk, a real-time communication and monetization platform.

SKILLS

Core Stack: JavaScript, TypeScript, React.js, Next.js, Node.js, NestJS, Express.js

Real-Time & Communication: Socket.IO, WebRTC, Agora RTC, Twilio

Databases: MongoDB, PostgreSQL, Supabase, Redis

Payments: Razorpay, Stripe, Payment Webhooks

Auth & Security: JWT, OAuth, OTP Authentication, bcrypt, RBAC

Cloud & DevOps: AWS, Amazon S3, Vercel, Docker, Linux, Nginx, PM2, Git

PROFESSIONAL EXPERIENCE

Web Developer, ATR GROUP Aug 2025 - Present

- Lead backend and frontend development across 3 production applications built on Next.js, React.js, Node.js, and TypeScript
- Designed and shipped REST APIs, authentication systems, and admin dashboards used by internal staff and live customers
- Own deployment and infrastructure across Vercel and AWS, maintaining production uptime across all active client projects

Full-Stack Web Development, Brototype (Training & Production Projects) Dec 2023 - Jul 2025 · Kerala, India

- Built full-stack applications using Node.js, Express.js, NestJS, React.js, MongoDB, and PostgreSQL as part of an intensive production-focused training program
- Implemented secure REST APIs with JWT, OAuth, and RBAC, and shipped real-time features using Socket.IO and WebRTC, deployed via AWS with Nginx and PM2

PROJECTS

Mint Talk — Real-Time Communication & Monetization Platform (Team Lead) · Node.js, Express.js, MongoDB, Redis, Socket.IO, Agora, Razorpay, Stripe, React.js [Ⓢ Project Link](#)

- Lead a team of 2 frontend developers, planning and assigning sprints across a 12-task feature roadmap for the admin panel
- Architected backend systems for audio/video calling, chat, wallet/points, and host payout workflows
- Built the real-time communication layer using Socket.IO and Agora RTC for low-latency calling and messaging
- Integrated Razorpay and Stripe for a points-based monetization system, delivering admin tooling for user, host, call, and transaction management

ATR Dubai Visa — Visa Application Platform · Next.js, Supabase, Stripe [Ⓢ Project Link](#)

- Designed and built a production visa application platform with staff role management and applicant status dashboards
- Integrated Stripe payments and webhooks with Supabase-backed workflows, processing live customer payments with zero reconciliation errors

Imperial Avo — E-Commerce Platform · Next.js, Node.js, Supabase, Stripe, Twilio [Ⓢ Project Link](#)

- Built end-to-end e-commerce workflows — products, cart, checkout, orders, and admin — for a premium avocado delivery brand
- Integrated Stripe payments and Twilio SMS order notifications, developing a fully responsive Next.js storefront

EDUCATION

Bachelor of Science, Computer Science, Kannur University Jun 2019 - Apr 2023 · Kannur, India
